

DRAFT LOUTH COUNTY DEVELOPMENT PLAN 2021-2027

hello, we live on ,
. A wonderful area is very beautiful and well-groomed, if not for the stadium, which is located just opposite our house and which is not used for its intended purpose. Every evening teenagers gather here who drink alcohol, smoke, make a lot of noise as there are fights between them, they repeatedly set fire to the fence around this stadium and turned this place into a dump. More than fifty young people with backpacks full of fireworks gathered for Halloween at this stadium. They began to set fire to fireworks, throwing them between themselves, as well as into our yard right in our windows, it was very scary, several swept away remained on the glass of our <https://scanner.topsec.com/?t=8f903502c231b6b285c75fe85ceaaf1c25afd26d&u=windows.My&d=1400> husband made a remark to them to direct the fire in the other direction, but in response they heard abuse and even more fire. The neighbors called the police several times, but they came, but they never stopped, they just drove by, the husband tried to stop them but to no avail. We were very scared and worried about our house and car as there was a lot of fire. We cannot feel safe in our home. Ahead of Christmas, we plan to leave home and wait out this time in a safer place. We do not know where to turn to, when we settled in this house we were promised that the stadium would be demolished as residents have long complained about the noise and inappropriate behavior of teenagers who gather there from all over the city. We really hope that you will help us keep this wonderful Dundalk from destruction. We really like this area, I tried to improve the area around the house by planting 15 rose bushes and many other flowers, but half of the roses were destroyed, the flower beds were trampled. Please, you can come to the place yourself and see if my words are true. Don't leave this area unattended.

Best regards, Nila Kolosinska
