Dear Sir,

I wish to object strongly to the current draft LCDP in specific regard to the definition of the outer BUFFER ring in that if taken to fruition will decimate the Monasterboice parish and community.

I'm asking that the outer buffer zone be reduced slightly to accommodate development within existing ribbon definition on Newline Road.

This is a simple request that does not impact the heritage of the area and also protects from random widespread development in the area.

Best Regards
Declan Byrne
