My family lives on the north side of Drogheda, I also work in Dundalk, to have a rail service for Drogheda North and Dunleer would make things so much easier for me and my family and I wouldn't need to drive so much.

My wife and I also use the train whenever we stay in Dublin, Belfast, etc and we always have to drive to the south side of Drogheda's McBride station.

Please reconsider the reopening of the Dunleer Station and the works on a Drogheda North Station.
