**Subject:** Re zoning in Carlingford

Dear Susan,

I would like to make a submission to the Development plan on behalf of Kevin and Jackie Woods Ghan Road , Carlingford , A91X820 . They own a substantial plot of land at the back of their home in Carlingford it was originally planned for members of there family would build homes on This property , They have been informed by Louth county council that they will not receive permission for housing on this plot of land . The Woods family are asking for this plot of land to be zones for tourism and commercial . Over the summer months the village of Carlingford witnessed a massive influx of motor homes on staycation holidays it was quite apparent that the village of Carlingford has a massive deficits in parking spaces for motor homes indeed i brought this subject up at the September council meeting . I wish to convey my full support for this venture . I will enclose a map of the said facility. Mr Woods who is widely associated with tourism in Carlingford would like to incorporate a folklore team to this park highlighting historical characters eg Cu Cuchulainn, Brown Bull of Cooley and various attractions for children. I wish to state as a local councillor in the area my full support for this very worthwhile venture.

Kind regards  
Cll John Reilly.
