Re: 'Draft Louth County Development Plan 2021 – 2027'

To whom it may concern

I am writing in reference to the above and my objection to this plan going ahead. Speaking as a resident from North Louth my whole life, I feel this would have detrimental effect to this area and all its residents. The effect it will have on our young people's future plans ie. Planning permission to stay within the area they grew up, to be beside family and friends. This plan will completely depopulate the area which in effect will end up closing schools and football clubs not forgetting all the businesses and shops.

This has been a particularly difficult year for everyone with all the restrictions on public meetings etc which have resulted in residents not been able to fully discuss the real detrimental consequences of such a plan been put in place.

I do hope you take into account my concerns

Regards

Sheena McLaughlin
