

Louth County Development Plan 2021-2037

I would like to let it be known that I do not agree with the proposal to stop people from building one off houses on their own land in north Louth. This will depopulate the rural areas which will effect schools, shops and businesses not to mention sports clubs in rural areas. There is such a shortage of housing at the present time it doesn't make sense. This is being put through without proper discussion or consultation with people living in these areas as there are not the usual channels open due to COVID 19. I would like to see this proposal being postponed until at least 2022 when the pandemic will hopefully be over and proper consultations can take place. I urge Louth County Council to think again on this issue.

Yours

Kathleen Marmion
