

Draft Louth County Development Plan 2021-2027

Dear Sir/Madam,

Upon reading the proposed development plan I feel the need to comment that this is unfair to people who have land and young families like myself. I'm currently applying for planning permission hoping to building on our family land. I have two young children who, in the future, I'd like them to be able to build their own house on their own land. House prices are very high in the north Louth area and average salaries do not match up. I do hope these plans don't go ahead as it would be a sad fact to know my own children couldn't do what my family have been able to do for many decades before.

Kind regards,

Claire Armstrong
