

Submission regarding draft development plan 2021-2027

Relating to Omeath/Extension of A2 Zoning to the boundary of IW waste water treatment plant.

Details

I would like to request that Louth County Council consider the extension of the A2 New Residential Zone to the boundary with the proposed waste water treatment plant in Omeath, referenced as Plot 1 on the map below. Given that Irish Water will complete the treatment plant project during the life of the next county development plan it would seem logical that the small strip of L1 Strategic Reserve that is left between Irish Water and the existing A2 zone is converted to A2 for completeness and uniformity. The area that I refer to is the marked L1 on the map.

Yours faithfully

Patrick Rooney
