

Development Plan

To whom it may concern,

In relation to the Louth County Development Plan, I would object to this being put into place as it will destroy growth and force the younger generation to move out of the areas where they have grown up and they would be denied their right to do so. I myself have a young family and would like to think that they would have the opportunity to build within the area if the opportunity was to arise. This action will destroy local business who provide services to the area as there will be no increase in population due to the limitation that will be put in place with this development plan. It would also have impact on local schools who need new families in the area to continue to provide a service to the community, no new enrollments into local school will lead to a loss of jobs and allocation of teachers to schools. People who own land or sell to others have the right to build in their locality and this should not be dictated by a development plan.

Yours Faithfully

Paul Keenan
