To whom it may concern,

I am writing this email to voice my concern and fear of the proposed Draft Louth County Development Plan 2021-2027. As a 21 year old, I am hoping to live in my native Glenmore and build my own home in the coming years. The proposed Louth County Development Plan has stricken me with great concern and fear - fear that I will not be able to fulfill one of my life's goals of owning my own home in the area that I had the pleasure of growing up in. For years my parents have worked hard to try and give me that opportunity and now, because of this draft, all of their hard work and my hopes and dreams of raising my children where me and my family have grown up, will be shattered. I am only one of the countless natives that will face this situation - being uprooted from where we call home, leaving so many families devastated.

I would desperately plead to those responsible to rethink this draft and give me the opportunity to live in my native area and fulfill my dream of raising my own children in the area, promoting local businesses, schools and sports clubs in years to come.

Kind regards,  
James O'Reilly
