Letter of Observation**

Dear Sir/Madame

With reference to the Draft Louth County Development plan. I would like to express the following concerns.

- 1) I feel the Draft proposals are very extreme and will decimate the local community and Local sporting organisations.
- 2) The possibility of the elderly having no family close by to help them and put extra pressure on services that are currently inadequate.
- 3) There needs to be proper discussion on this plan with the wider local community and business groups in the Cooley area. Trying to get this passed in the middle of a global pandemic is outrageous and simply unacceptable.

The vote on this should be delayed until a proper public meeting can take place.

Your sincerely

Raymond Ryan
