I would like to take this opportunity to outline to you a number of points why I am deeply against this plan. I am a sole trader and rely solely on local business from the Cooley Peninsula. My business is garden maintenance and a large part of my clients are made up of the elderly & people living alone. If there is no prospect of new people coming into the area I dread to think what this will mean for future business for me. After an extremely tough year I am fearful as to what this will mean for me & my family.

As it is our schools are overflowing with people from towns and surrounding areas, I can't imagine what it will be like if our friends, neighbours & their families are forced to move to towns which are bursting at the seams already. People in towns are crying out for places to live because they want out of the town's to raise their families. I think it is totally unbelievable that people who are born and raised in their local communities may never have that opportunity for their own families unless they are privileged enough to have land !!!

I cannot express strongly enough how detrimental I feel this will be to our rural community & way of life as we know it, from our schools, churches, GAA community, local shops, jobs, the list is endless. Please think long and hard on this and I urge you to reconsider before you vote. I await the outcome in anticipation

Sean & Amanda Mc Carragher.
