

Louth development plan

Hi,

I'm just writing to air my huge concern to the proposed Louth development plan and how it will impact rural communities in Louth.

I'm very concerned that this development plan will not allow families, with long links to an area, from building homes in the communities they grew up in.

We need to keep our rural communities alive and this plan will see an end to country living and increased isolation for many.

Regards

Wendy Tinsley
