To: LouthCDP

I, Charlie O'Neill, object to this plan.

I am the son of a farmer and I want to protect my right to build my house on my father's land. I object to your plan as it takes away the right for myself and my four brothers and sisters to all build our homes on our family farm in the future.

We all help in the family farm and since we were young we have always planned to live here on it.

Please do not try to take away our future.

Your plan would also change Glenmore for the worst. We love our community and our school, and with your plan schools would close as people would have to move away. The community would die out and this can't happen.

Charlie O'Neill,
