To Whom it May Concern,

I would like to express this submission to object to the new development plan, I have moved to Dublin to gain an education and for the past 3 years I have been working abroad to earn enough money to finally build a home where I grew up and where my family have lived. I have a baby on the way and to find out that I will not be granted planning permission because my family do not own 3 Ha of land is a disgrace. My family have 2 local businesses in the area and I had planned on setting my roots in Irish grange to allow my children to continue the family business in many years to come, my family own 4 plots of land, 1 of which is where the home house is located, 2 others are occupied by the two businesses and the last plot was saved for a house for myself and my sister, this new plan isolates all the land my family own with no possibility of permission being granted. I have tried to submit planning through this year but with it being such a hard year for everybody I have not had the chance, all that being said, considering the hardship this year has caused it would be beneficial to either amend the restrictions or delay to allow people with no other option to apply for planning.

Kind Regards,

J Long
