Re the proposed development plan

I **object** to the proposed plan in my area, Glenmore, Riverstown.

Your plan would lead to the area becoming empty of local families, school closure and isolation.

My husband is a farmer and landowner, and our children plan on building their homes on his land in the future, as has been the way for generations in the family. Your plan tries to take away this right to build on your family's own land. This is wrong. Our children are entitled to live on their father's land. We fully intend on challenging any plans that will effect our lives and those of our family.

Regards

Caoimhe O'Neill
