---

To whom it may concern,

I am writing in reference to the above plan which I object to.

I believe this plan will have a detrimental effect on rural communities in North Louth. During the current housing crisis, more housing is needed not plans to make it tougher to build and force families to live further apart.

Please do not implement this plan until there is an opportunity for the rural communities effected to have their say at a public meeting.

Regards,  
Fiona Keane
