---

To whom it may concern,

Both my parents and myself have been born and raised in the Cooley Peninsula. My parents got the chance and the right to build their home here. I want that same right. This development plan is detrimental to so many people, especially young people, in the area. Personally, I will be looking to build my home in the next 2 years and I want to build it on the Cooley Peninsula. I want to reside beside my family, where I grew up, where I know and love. Please reconsider this plan as it is detrimental to our future.

Regards,  
Lisa Traynor
