To whom it may concern

This is in relation to the above plan.

Our site as indicated in the attached map is our only site which we have owned for over years

My husband who is has lived her in the area since birth. I myself am here almost years

It has always been our wish that our only son would build on this site.

Our other child is married and living in south Louth so thankfully has no requirement to live in this area.

has a neurological disorder and it would be our hope that he would live close to us for both our benefits.

This development plan is totally unfair for our family and we would hope that considering these circumstances I've outlayed you would extend the boundary to include our site.

When u look at the map you will see our site which is .66 of an acre is just 2 fields outside The Development centre.

As a mother I hope you will allow my son build on this site and the peace of mind it would give to me and my husband to know as we get older that would be among family in his roots.

I would be so grateful for reconsideration in our case
