To whom it may concern,

I am writing this email to inform you about my concern and fear regarding the proposed Draft Louth County Development Plan 2021-2027. I am 21 years old and I am a native of Rathcor, which is situated in Cooley. I have lived here my whole life, Cooley is my home. As I am getting older, I am hoping to live in Cooley, where I have planned to live for the rest of my life. The proposed Louth County Development Plan has filled me with great concern and fear. My concern and fear is that I will not be able to own, build and live in my own house in Cooley if this Plan comes into place. For years, my parents have worked hard to ensure that myself and my siblings had the opportunity to live in the area that we have grown up in. This plan will have ruined all my hopes and dreams of raising my children in the same area as I have grown up in, in Cooley, in the much adored countryside. If this plan is brought into place, countless natives like myself will face the same situation. This plan will force people of the area to emigrate to other countries.

I am desperately pleading to those who are responsible for this to please rethink this draft and give myself and all the natives like me, the opportunity to live and raise our children in the area, promoting local businesses, schools and sports clubs in the years to come.

Kind Regards,
Laura Traynor
