Dear Local Representative,

I contact you today as a concerned Principal of Scoil Naomh Mhuire, Boher. I have explored the County Development Plan. I feel there is significant cause for discussion and consultation with county residents.

I have concerns regarding the changes to planning law which will impact negatively upon school. Should new families be unable to build in the locality we will see a drop in ur numbers., This will mean the school will face the possibility of losing a teacher in the coming 3 year period. That would have a detrimental impact on the education of our pupils, the school community and the wider community,

I wish to express my concerns regarding lack of public meetings and endorse the postponement of finalisation of the plan until such a date that consultation can be facilitated in a safe manner.

Kind regards,

Sarah Walsh
