I am a resident in Bellurgan Point, and would like to submit an objection to the proposed Louth County Development Plan 2021 – 2027.

This plan will exclude our children building beside our existing family home or surrounding area in the future if they so wished.

This plan will leave rural areas with an ageing and more isolated population as our children will be unable to settle and make their home near us in the future.

People who have roots in the local area should be allowed the opportunity to remain in the area and build on the land that has been in their family for generations.

These changes are being proposed during a pandemic when people are unable to hold community meetings to discuss the potential impact to the future of our local area and the younger generations.

I believe the implementation of the proposed Development Plan should be deferred due to the current Covid-19 situation, until a time when it is safer for us all to openly discuss its implications.
