---

To whom it may concern.

I wish to object to the recently published draft louth county development plan 2021-2027.

This plan prohibits a person receiving planning permission in zone 1 who wishes to look after an elderly relative and places very strict conditions in zone 2.

I believe this draft plan if enacted will have detrimental social, economic & cultural effects on all residents, families and business in all communities under this plan especially in zone 1.

I also think that in this year 2020 with the current pandemic and as we face into yet another lockdown going into 2021 this draft plan should be postponed until public meetings can be held/allowed so as all residents and members of the public can be properly informed & be allowed to openly discuss and get to understand all the implications of the proposed plan.

Terence Dunne.
