

## Zone 1 opposition

---

To whom it may concern,

I wish to register my opposition to the plan's recommendation for the Zone 1 area, as proposed.

I believe the proposed qualifications for Zone 1 planning are far too restrictive and will not allow for the familial continuity and growth in rural areas like my own. More than ever in these times of increased working from home we have an opportunity to draw young people back to rural communities and reintroduce life and vibrancy into our communities.

I understand the need to look after the countryside and limit the building etc going on. But local needs do still apply.

Children born and raised should be able to build beside their parents.

I know in the past some have slipped in through the net and I also feel these people don't understand the ways of the people who have roots in the land. We understand the areas and respect where we live.

Don't give the land or the opportunity to people with the money to buy run down bits & pieces of history, who just want to build their mansions with a view, these people don't have a link and don't care.

But the people who belong here are the people who will maintain and love the land. the area where they were born and where they belong. Moving our young people out of the place where they belong is just wrong. Some don't want to be country people and they will move on. But we need to look after the ones who want to stay. The keepers of the country ways.

NOT just the farmers.

Life is hard enough without having to fight to live on the land you where you belong.

I hope you take the time to read this and it finds you well.

Your sincerely,

Deborah McGuinness
