---

In relation to the Draft Louth County Development Plan 2021-2027 I wish to express my extreme concern at the potential consequences of this plan for me and my family who were born and reared in the Faughart area which is included in the Zone 1 area of the Development Plan.

As I understand it neither my son or daughter would be entitled to apply for planning permission to build a new dwelling on our land as we are not engaged in full time agriculture and do not own 3 hectares required in your Plan.

The local schools and sports clubs are also going to suffer as all the children will eventually be in the urban areas thus leaving the rural schools and clubs with falling numbers.

I think this is absolutely ridiculous and grossly unfair to my family who have had no opportunity to partake in a forum to discuss this Development Plan and who have been cast into Zone 1 under this discriminatory biased Plan.

I think this should be put on hold to allow further discussion as we are in the middle of a pandemic and meetings are not taking place at present.

Yours

Eugene Marmion.
