I am objecting to the adoption of the new draft Rural development plan, specifically the designation of the parish of Collon and electoral area as Rural Zone 1 and the associated restrictions this entails. My family has lived all our lives in Belpatrick we are all passionate about our town land and want the next generation to be afforded the opportunity to live here also this proposed plan in its current format would stop this happening. Collon is one of the smallest parishes in the dioceses of Armagh, it has been overlooked for years in receiving any type of funding, we have overcome this with our community spirit during this time.

If this plan is adapted in its present form it will spell the end of our National School our local sports clubs and new families in our community .

I am pleading with the powers to be to reject the adoption of this plan specifically the rural zone 1 designation with the stringent regulation it includes.

Regards
