

MATTOCK RANGERS C.L.G.

COLLON, CO. LOUTH

A chara,

After viewing The Louth Development Plan 2021-2027 we at Mattock Rangers feel that the lack of future building opportunities and denying the opportunity for young adults and future families to stay in the area in which they were raised and live will have a very negative affect both on Mattock Rangers and Collon community in general.

This black and white building ban approach shows no sign of hope or will to even listen to certain circumstances in which people and organisations find themselves faced with over the next decade.

Denying young, local people from building on family land held for the benefit of their children is just one example of how this plan is very wrong.

We object to this plan whole heartedly and we would urge you and our local councillors to come together and help future generations and preserve our community fabric that will be ultimately lost.

Is mise,

Earnán De Róiste
