To Whom it may concern,

I would like to submit an objection to the proposed Louth County Development Plan 2021-2027. Those most effected by the plan should be given adequate opportunity to contribute to decisions being made about their future and so I urge you to postpone the implementation of this plan.

Having been born and raised in the Cooley Peninsula, my long term life plans have centred around living locally, raising my own family, building my local family business and remaining close to family, friends and connections.

Local employment has been created over generations of our and other family businesses in this area. Future plans for the business involve employment of young locals who with this development plan may be forced out of the area.

Extensive resources have to date, been injected into the development of our rural communities in order to connect those whom this plan now intends to isolate.

I acknowledge that changes may be required in the near future to accommodate a growing population and changes in society, however, further discussions are needed before any actions are implemented.

Regards,

Ryan Sheelan
