To follow up on my previous email, I object to the rural development plan specifically the rural zone 1 designation and its stringent regulations.

To whom it may concern,

This new development plan should not be brought in. How is it possible to try to implement this new housing plan during a housing shortage?

In my own village of Collon there are no planned developments for housing estates. Any recent housing estates are council estates. Despite living and working all my life in my village I will have to move away from the area to try to purchase a house due to these new rules. What is the purpose of this plan? It is absolutely ridiculous that I must leave my locality due to a plan devised solely for what purpose? We have two sites available to us and as a result of this plan we will not be able to build.

Kind Regards

Daire
