Subject: Objection to Development Plan

To whom it may concern,

This new development plan should not be brought in. This plan is disgraceful. There are no houses for sale in my own Village with no plans for any developments in place. This means anyone in my village would have to leave their own areas to purchase a house. This is bad enough but there is a housing shortage making it almost impossible to buy a house. This is also ruining the local communities with local families that have lived here for generations not being able to build or purchase a home. plan, specifically plan rural zone 1 designation needs to be rejected and re thought as it is clearly not thought out.

Kind Regards

Daire
