---

To whom it may concern:

I would like to make a submission to object to the above plan.

As a resident from Castletowncooley I strongly feel that if this comes into affect it will have detrimental effect to our area with regards to businesses, schools and local people unable to stay in the area they have been brought up in and go on to build their own home so they can an have their own family live in the area.

I have a son and a small piece of land which I would like to think he would be able to build on it in the future.

Unfortunately with this new plan this will not be possible.

Yours Sincerely

Lisa Donnelly
