

To whom it may concern,

I am writing regarding the Louth County Development plan 2021-2027 I wish to submit an objection to these plans. I have grown up in Ravensdale in a farming family who have taken care, natured and appreciate the beauty of the landscape. I hope to build a family home and pass this experience on to own my children however this will not be the case if these proposed plans get accepted. If future generations of these local families are unable to build homes on their own land who do you propose on will maintain the beauty of this landscape? Rural areas will become uninhabitable, socially and economically deprived.

I am from farming family who own their own land, with siblings also wishing to build, it is incredibly unfair to force parents to choose which 2 of their children will get to build on land that they own and have looked after thought out their lives.

I regularly go walking in Ravensdale, what distracts me from the beautiful scenery is not the houses that complement them landscape but the motorway the runs right through the valley.

Regards,

Leona Dunne
