---

To whom it may concern,

I wish to strongly object to the above draft development plan in its present state. It now seems that unless one is a son or daughter of a farmer, planning permission is a non starter in zones 1 and 2.

A person who was reared in the countryside and spent a lifetime there should not, in my opinion, be forced to reside in an urban environment against their wishes and vice versa if that is their choice.

It is a well known fact that the main sewer systems in the adjoining towns/villages are unable to cope with the present requirements and are operating, or expected to operate, well beyond full capacity.

I feel that the plan is totally discriminatory and each individual planning application should be treated on its own merits. The population in zones 1 and 2 is destined for a major shock in coming years and will have a detrimental effect on school numbers and business' in the area if this plan is adopted. This is poor planning at its best and needs to be opposed at every opportunity.

Regards,  
Fiona Marks
