To whom it may concern,

I am writing in relation to the Louth Development Plan review 2021-2027.

I wish to put in an **objection** against this plan.

I live locally in North Louth- resident in Greenore. I am now at the age where I am going to need to live separate from my parents, get my own house and start a family. My wish would be to build in my local area and also as my partner is a builder. With the proposed plan this would not be possible whatsoever, it would leave us very restricted in where we would have to live, pushing us away from our locality, community, family and friends.

There are many houses on the North Louth area that are owned as holiday homes that have been built in recent years, those people not local yet can stay in my locality!!

This plan will not only push locals out it will affect businesses, people who work in the building sector, carpenters, plumbers, schools, community clubs..the list goes on.

I hope that you will take this objection in to consideration and remember the young local people who are trying to make a start on life- especially after a worldwide pandemic.

Yours sincerely,
Laura Ballantine
