To whom it may concern,

I object to the proposed development plan as is.

I would like to see the rural settlement areas you have defined increased so there is scope for sites in these areas for people who live locally.

As is there are very few sites available in some of them and if you are from a settlement you do not qualify for rural housing in the locality outside the boundaries because you have defined the settlements as urban areas, even if you are within the set km limit from your family home and have lived in the area for 10 years or 18 years as the new proposal states.

Kind regards,

Kathy McCumiskey
