Subject: Louth County Council Development Plan - OBJECTION

I am a year old and reside with my father in Bellurgan Point, I a single mother and have lived in Bellurgan Point all my life. My father has land beside our house and I has allowed me to build on this piece of land when I am in a position to do so. If this development plan goes ahead it will not give me the opportunity to do so. It will put me in a position where I would have to move away from our family and friends and this would not be ideal. My parents have also lived in this area all their life and their parents previous. Both my brothers have also built here and it would put the local community in an isolated position going forward as there would be no generation to follow which would result in locals schools etc closing.

I would like to be in a position to provide for my son as in time we would like our own space as you can understand.

I have refrained from applying from social housing as I would like to live beside my family like I have done so all my life.
