Attention: forward Planning Unit

Dear Sir/Madam,

I want my objection noted to the recently published Draft Louth County Development Plan 2021-2027.

Restrictions are already very tight. I have personal experience as I recently built locally in the Cooley area. My husband and I work locally, shop locally and our children attend local schools (primary & post primary). We are also in a position to help elderly parents who can continue to live locally and positively impact the local area.

If this draft plan was in place a few years ago we would not have been able to build in the Cooley area and that would have meant depleted numbers in local schools and lower revenue in the local economy. We are only one family but if this draft plan is implemented it will impact many families into the future which will in turn reduce the social & economic health of this, already deprived, area.

Please lodge my objection and I urge you to stop this draft plan.

Regards

Marie
