

Objection

To whom it may concern,

I refer to the above and would like to submit a submission of objection to the proposed Louth County Development Plan 2021 – 2027.

Having been born and raised in the Cooley Peninsula, it has always been a long term goal of mine to live, and to start a family in my local area, close to family and friends. I would also hope my future family could do the same.

I am very much concerned and aggrieved that a development plan would effectively end my hope of building beside my existing family home or in the surrounding area.

This will have huge implications on our local schools and local sporting organisations. In addition to this, it is forcing people (like myself) to consider moving from the familiar country, rural environment to an urban environment. This would be an extreme change.

Although we fully support any initiative that helps maintain, and sustain a long term ecological and environmental future for our community, we believe this is not the answer.

Kind Regards

Darren Marks
