To whom it may concern,

I wish to register my opposition to the plan's recommendation for the Zone 1 area, as proposed.

I believe the proposed qualifications for Zone 1 planning are far too restrictive and will not allow for the familial continuity and growth in rural areas like my own.

we need to draw young people back to rural communities and reintroduce life and vibrancy into our communities. I believe these changes would inhibit that potential.

I am one of 3 adult children in my family and I have lived in omeath my entire life and it is my wish to someday build a house close to my parents home. If the proposed changes are approved I would be at risk of not meeting the criteria and I would be devastated, living in this area supports my mental health and well-being. I work locally and have no desire to move out of the rural setting I have known my whole like.

I hope this email helps inform you of the local concerns regarding this plan.

Your sincerely,
PJ Mc Givern
