

DRAFT LOUTH COUNTY DEVELOPMENT PLAN 2021 - 2027

Donal Mc Shane []

To: LouthCDP

To whom it may concern

I Dónal Mc Shane of [redacted], Carlingford propose that the new Rural Housing Policy for Louth contained in the draft development plan be postponed until there is proper clear, concise communication and debate with the native people within all the rural communities in the Cooley Peninsula.

As I come from a farming background where my father has farmed full time for 50 years and his uncle before him and I fully intend to do the same with the same longevity as the two generations before me, the powers that be may argue that this new Plan would suit me.

But as a native and proud resident of our area I feel this discriminates against all ages of our community and will prohibit myself and my family and many other young couples from settling in the area where they have lived their whole lives. I also feel it will be catastrophic to our businesses, schools, and all sports clubs that are vital to our area and our community.

I would appreciate your consideration.

Regards

Donal Mc Shane
