To: LouthCDP

Dear Sir,

I wish to call for a postponement of the of the implementation of the Draft Louth County Development Plan 2021-2027.

I believe it will have serious implications for rural life in county Louth, and given the year that we have just been through, there was not adequate time or opportunity for a full consideration and debate on the draft plan. I believe it would be fair and reasonable to postpone implementation of this draft plan until there has been an adequate consultation process where everybody is able to put their views forward and be part of this important process.

Yours sincerely

Brian McArdle
