Subject: objection to new proposals

To whom it may concern,

I wish to register my opposition to the plan's recommendation for the Zone 1 area, as proposed.

I believe the proposed qualifications for Zone 1 planning are far too restrictive and will not allow for the familial continuity and growth in rural areas like my own. As a father of 6 adult children the proposed changes are deeply distressing as I am aware all 6 of my Children wish to build on our family land and if the proposed changes were approved it would mean that 4 of my children would be unable to build as 2 have already received planning permission.

My family are actively involved in the local community and they wish to grow and develop the greater community in Omeath by their actions. We should be encouraging young people back to rural communities and reintroducing life and vibrancy not introducing barriers to prevent them from building in their local areas.

I hope this email helps inform you of the local concerns regarding this plan.

Your sincerely,

Charlie O'Hagan
