As a resident in Jenkintown / Ravensdale area I wish to object to the current proposal for the county development plan on the following grounds

1. No attempt has been made to consider or discuss the impact on local rural communities with these communities
2. No alternative arrangements are been made for rural development
3. This will close the majority of our local primary schools and sporting organisations
4. The impact will significantly reduce all commercial activates .
5. This plan clearly sets out to de-populate our rural areas , deprive them of commercial opportunities and force the next generations to live in large urban centres
6. The plan is un constitutional and immoral ... it's runs contrary to been Irish and our way of life as we know it ..

Regards Alan Mc Kenna
