---

Dear Louth County Council,

I am writing to you regarding the Louth County Development Plan 2021-2027.

I would be gravely concerned about the following, if the draft plan were to be approved:

1. For the elderly in our community who would be prevented from having family build beside or close them. As a result isolating them and losing close family support.
2. Facilities like our local schools would have a major reduction in new enrollments and therefore be detrimental to the community as a whole and would probably lead to them closing.
3. Similarly as per point 2, the GAA is the heart of our community and if we do not have a new generation in the area, then there will be no central community hub.
4. If there will be no new builds in the area, then it will put the price of existing housing up and anyone who would have been in the position to buy may not be able to so. Forcing local people out of their local area.

I hope you take all of the above into consideration.

--

Regards,

Amy Murray
