

Re: 'Draft Louth County Development Plan 2021 – 2027'

To whom it may concern,

I am writing to you to submit my objection to the above plan.

This plan, if successful will have detrimental effects to the North Louth area. I want it to be noted that it is extremely disheartening to the people of North Louth who have worked hard in the hope that they or their children would be able to live in their native area.

The restrictions that are an inevitable result of the plan will prohibit local people from living in their locality. This will have an adverse effect on the schools, local businesses and sports clubs in the communities as well as the citizens of North Louth's ability to care for family members with an illness or disability.

The plan if successful will be an assault on the communities in North Louth and the bonds the families within these communities have formed over centuries.

Kind regards,

Aoife O'Reilly
