

Attention : Planning Unit, Development Plan Review, Louth County Council, Dundalk, Co. Louth

Re: Louth County Development Plan 2021-2027

Please accept this submission for consideration in the finalisation of the 2021-2027 Louth County Development plan.

Drogheda Alzheimiers have commenced construction of a new dementia day care centre on lands at Greenhills Drogheda as highlighted with a dark blue border in the map below. The purpose of this submission is to seek to change the land use zoning on the adjacent lands (marked with red border on map below) at Newtown Links road, Drogheda, Co Louth for the purposes of institutional development. Discussions have commenced with Louth County Council to explore developing potential complimentary facilities such as respite, living assisted, general medical and dementia and elderly support services on these adjacent lands. Such development would require rezoning to institutional development in line with the zoning of the existing lands where the new day care centre is being currently built

Please consider this submission as you finalise work on the development plan for the area.
