>  
> Re Alteration 91  
>

>  
> Dear Sir  
> It is deep sadness that I notice that the Objective of reopening Dunleer Railway Station has been removed from the County Louth Development Plan.  
> I think this is a major mistake and I would like to see it reversed by the Council. The more options in relation to Public Transport that are available the better.  
> It is pie in the sky to suggest that the Transport Authorities will go out and look for another location for a train station when Dunleer is a viable option.  
>  
> I also believe that a new station is required in South Dundalk to serve the College and the new industries that are there. The changes that were made in the Development plan make no sense and fly in the face of proper planning.  
>  
> I would respectfully ask the Council to reverse Alteration 91.
