I wish to make a submission to the Draft Louth County Development Plan 2021-2027 on Dunleer Railway Station been kept in the area plan.

Dunleer is a great industrious town and a lot of workers travel there by car thus increasing problems with the global warming situation the world is in at the present time.

The opening of the Station would be of great benefit to the whole of the Mid Louth Area.

Also, the trains we have now are faster, stop and get away quicker from stations. Also, they are far more comfortable and convenient thus, encouraging people to travel on them.
